Cynthia Priebe Latest to Join New View Strategies

[Milwaukee, WI, December 9, 2019] New View Strategies is proud to announce that Cynthia Priebe has joined the team as Senior Trainer and Consultant. Cynthia will focus on leading a wide range of training classes, developing new content, and providing specialty consulting to New View's clients.

"We're thrilled to have Cynthia on the team to support the growth in our business," shared Kerry (Rosvold) Peters, CEO. "Cynthia has collaborated with us informally for years on teaching classes and comparing notes on best practices when using Microsoft Dynamics NAV / Microsoft Dynamics 365 Business Central. Her high standards for quality of information and generous attitude for sharing what she knows with others is a fantastic fit with New View. We are incredibly pleased to have her join the team officially and bring her significant talents to our customers and students."

Cynthia brings a deep history of experience with Microsoft Dynamics NAV and Microsoft Dynamics 365 Business Central. Since 2005, she has supported a diverse range of Dynamics NAV and BC customers with process improvement, upgrades and implementations, and ongoing support. Her past roles include Business Analyst, Project Manager, Practice Manager, and Managing Partner. Cynthia has been recognized by her peers and audiences in her ability to truly leverage the core functions and features built into Business Central / NAV to meet a company's needs. By taking a fresh, creative approach to solving business challenges with the core application she has a proven ability to maximize usability, minimize customizations, and save time and money for a company in the short and long run.

Cynthia is highly active in the Business Central / NAV community, and has been a highly rated speaker at NAVUG Focus and multiple NAVUG Summits. She is a sought-after instructor for User Group Academy classes, and is on the leadership team for the Great Lakes NAVUG Chapter. She is a member of the Dynamic Communities Credentialing Council, which is the governing body that provides oversight and strategic guidance for nearly all aspects of the Dynamics Credentialed Professional Exams and credentialing process. Cynthia has also helped to build the credentialing exams as a member of the Dynamics NAV Exam Certification Committee. She holds the NAV Core Application Setup Credential, the Advanced Credentialed Professional - NAV Core Financials, and the Professional Certificate for Accounts Payable. Cynthia has earned the MCTS (Microsoft Certified Technology Specialist) and MCP (Microsoft Certified Professional) designations multiple times.

Cynthia views joining New View as a logical next step in her career: "Joining NVS allows me to focus on what I absolutely love to do – share knowledge! For me, teaching to a group, one-on-one, or consulting, there is no greater joy than watching someone 'get it!'. Not everyone learns or comprehends in the same manner. To be part of an organization that truly understands and embraces this, and is dedicated to helping everyone 'get it' is just a really good place to be."

During the transition, Cynthia will continue to support her existing clients to ensure any ongoing projects are completed successfully or transitioned as needed.

About New View Strategies

With more than 30 years of experience in the Microsoft Dynamics space, New View Strategies is the go-to source for actionable training and process efficiency in Microsoft Dynamics NAV and Microsoft Dynamics 365 Business Central (BC). They provide extensive training and consulting services for NAV and BC – directly to customers and partners, and indirectly to customers on behalf of their partners. NVS believes that every company can benefit from increased efficiency and higher utilization of their ERP software and that it's possible to have fun while learning exactly how to do that.
