

Greetings!

The New View Team has been hard at work innovating for a world that is still COVID unstable, and you'll see quite a few examples in this month's update! We've been investing in several ways to enhance our virtual classroom experience and remote consulting services, and I have to share with you how extremely proud I am of this group and the great work they are doing to help you and your teams to do better with your work. Stay safe out there!

From our team to yours,

Kerry Peters

Mix It Up

Did you miss the first Mix It Up community event in July? It's a monthly get together to share BC tips you can use immediately. In August we're discussing our favorite time-savers in BC, and you can listen to the July recording now on [YouTube](#).

## CPEs and Classes on Your Schedule

As mentioned in our last #GetYourNewView we've been busting it to re-create our in-person training for the online environment. We are excited to announce that our on-line classes are now CPE eligible, and we've converted our registration to rolling enrollments - so let us know what you're interested in and we'll set up a class!

## Kerry Peters Microsoft MVP X 4

For the fourth successive year, our own Kerry Peters was recognized as a Microsoft MVP. Kerry shares why it's such an honor in the latest 3

## Our Growing Community

Even though we haven't been able to attend any in person conferences, we're still busy in the community. Check out the upcoming or recent events!

- Robb Delprado is leading a [Get Started With Service](#) series for BCUG/NAVUG
- Cari Corozza, Kerry Peters, and Cynthia Priebe are leading sessions at [DynamicsCon 2020](#)
- Kerry Peters and Mark Rhodes lead 4 sessions at [Summit Europe](#)
- Kim Congleton is leading "What story is your data telling you?" at the User Group's August [Virtual Power Up](#)
