

#GetYourNewView

## New BC features for the system admin

We've been sharing many of our favorite new features and enhancements with the October release of Business Central on [our blog](#) and [YouTube channel](#). In addition, our own Kim Congleton spent some time with [MSDynamicsWorld](#) recently to share her insights on the new tools available for system admins. You now can read "Unpacking 2020 Wave 2 for the system administrator" [here](#), and watch "Top 10 features for the system admin" [here](#). Thank you to MSDynamicsWorld for the opportunity!

## To BC or not to BC?

Nothing like hearing straight from other NAV and BC customers, is there? You'll get the straight skinny from 2 companies that use(d) Dynamics NAV about their contemplated transition to Business Central. One company has taken the plunge, the other hasn't yet. Join the next MixItUp on November 19<sup>th</sup>, 4:00 EST to hear from:

Andrea Hall, Stonewall Kitchen  
Missy Campbell, Terso Solutions

It's free but you need to [register on Meetup](#). If you can't make it, register anyway and you'll receive a note when the recording is available. All roles and versions are welcome!
