

#GetYourNewView

How you doin'?

We often get asked “How are we doing, compared to other companies?”. It’s actually a great question. Why not learn from the experiences of others? As you’re finalizing your 2021 budget and thinking about the most efficient places to focus your efforts next year, it’s a good time for a quick review of how well you’re using your Dynamics 365 Business Central / NAV system. Ask your team where they’re struggling. Look for manual workarounds. Why are errors happening? If you’re looking for expert advice from folks who have been there, done that – we can help. Check out our [Current State Assessment](#) – it’s a quick review of your processes and how well you’re using the system, and you’ll be provided with a detailed action plan of improvement opportunities. [Contact us](#) if you’d like more information.

A New View... on training

Like everyone else, this year has driven us to be more flexible and creative, and our training classes are no exception. We’ve put in countless hours overhauling the format and content of our Boot Camps to work in a virtual environment and are receiving incredible reviews. In a couple weeks we’ll unveil our overhauled training programs for 2021, complete with role-based learning plans. If you’d like to discuss training options for you and/or your team sooner, [let us know](#) and we’d be happy to help.
