

Advanced Warehousing Transactions

This class is critical for any company running Advanced Warehousing in Microsoft Dynamics 365 Business Central / Dynamics NAV. We'll help you understand all the warehousing transactions and how they flow through the system when advanced warehouse is turned on. We'll focus on receipts, put-aways, shipments, picks, movements and adjustments. We'll trace the transactions through the ledgers and sub-ledgers to show you what happens when these documents are registered or posted, so you can properly monitor your own transactions and resolve issues when they occur.

Class topics

- Receipts and Put-aways
- Picks, Shipments, Adjustments
- Inventory Ledgers and Postings
- MRP

Who Should Attend?

Warehouse Directors, Managers and other warehousing professionals who want to understand how Advanced Warehousing works within Business Central / NAV and how to correct inventory-related issues.

Learning Objectives:

At the end of this class, participants will be able to:

- Identify the differences in inventory movement and processing between Basic and Advanced Warehousing
- Follow warehousing transactions through the system for their entire lifecycle
- Identify common issues and resolutions for issues with inventory movement and postings

Field of Study: Computer Software & Applications

Program Level: Advanced

Prerequisites: Basic Warehousing Setup; must know how to create a sales order and purchase order, and how to process them through the system.

Advanced Preparation: Each student will receive via email connection instructions to their individual virtual classroom link and hands-on practice environment shortly before class. Connections to both resources should be tested before class. We recommend using a second monitor while attending class.

Delivery Method: Group Internet-based

CPE Credits: By participating in this class, you are eligible to earn up to 4 CPE credits which will be distributed following class completion. In order to be awarded the full credit hours, you must notify your instructor of your intention to request credit before the start of the first class. To receive CPE credit, you must be present and actively engaged, which will be verified using polling questions and other means. You will not receive CPE credit for any portion of the class that you do not appear fully engaged.

Version: This class is taught in Microsoft Dynamics 365 Business Central.

Learning environment: As experienced trainers of adult learners, we understand how to make training “stick”. We use proven practices to make sure you retain what you learn and are fully equipped to immediately apply what you discovered in class. Each day, you will spend more than 50% of your time doing hands-on exercises in our simulated learning environment.

Refund and Cancellation Policy: Please refer to our Refund and Cancellation policy [here](#).
