

Assembly

For those companies with simpler production processes Microsoft Dynamics 365 Business Central / NAV provides a simple solution: Assembly Management. Featuring an end-to-end “light” manufacturing process, Assembly enables companies to produce items by combining components yet still integrate the full production process. We’ll show you how to leverage this popular system feature, explain the options for make to stock and make to order, and cover the typical challenges you’ll face with running your assembly orders.

Class topics

- Assembly Setup
- Assembly BOM
- Make to Stock
- Make to Order

Who Should Attend?

Anyone from the manufacturing team interested in understanding why and how to use their system’s Assembly Management features.

Learning Objectives:

At the end of this class, participants will be able to:

- Explain when and why to use Assembly Management
- Identify the setup options and criteria for proper setup
- Identify the difference between Make to Stock and Make to Order and when to use each
- Design an approach for using Assembly Management for their operations

Field of Study: Computer Software & Applications

Program Level: Basic

Prerequisites: None

Advanced Preparation: Each student will receive via email connection instructions to their individual virtual classroom link and hands-on practice environment shortly before class. Connections to both resources should be tested before class. We recommend using a second monitor while attending class.

Delivery Method: Group Internet-based

CPE Credits: By participating in this class, you are eligible to earn up to 4 CPE credits which will be distributed following class completion. In order to be awarded the full credit hours, you must notify your instructor of your intention to request credit before the start of the first class. To receive CPE credit, you must be present and actively engaged, which will be verified using polling questions and other means. You will not receive CPE credit for any portion of the class that you do not appear fully engaged.

Version: This class is taught in Microsoft Dynamics 365 Business Central.

Learning environment: As experienced trainers of adult learners, we understand how to make training “stick”. We use proven practices to make sure you retain what you learn and are fully equipped to immediately apply what you discovered in class. Each day, you will spend more than 50% of your time doing hands-on exercises in our simulated learning environment.

Refund and Cancellation Policy: Please refer to our Refund and Cancellation policy [here](#).
