

## Inventory Control with Advanced Warehousing

When you implement Advanced Warehousing it's time to re-visit your processes and procedures for tracking your inventory to account for the differences in your inventory movements. Ensure that you are optimizing your Microsoft Dynamics 365 Business Central / Dynamics NAV system's inventory control and counting features to feel confident knowing how much you truly have, where it is, and how to make corrections when needed.

### Class topics

- Replenishments
- Physical and Cycle Count
- Inventory Adjustments
- Reservations, Troubleshooting & Reporting

### Who Should Attend?

This class should be considered critical for anyone on the Warehousing team when using Advanced Warehousing.

### Learning Objectives:

At the end of this class, participants will be able to:

- Design and implement their approach for regular physical and cycle counts
- Explain how replenishments and reservations work
- Identify common needs and approaches for inventory adjustments

**Field of Study:** Computer Software & Applications

**Program Level:** Advanced

**Prerequisites:** Advanced Warehousing Setup

**Advanced Preparation:** Each student will receive via email connection instructions to their individual virtual classroom link and hands-on practice environment shortly before class. Connections to both resources should be tested before class. We recommend using a second monitor while attending class.

**Delivery Method:** Group Internet-based

**CPE Credits:** By participating in this class, you are eligible to earn up to 4 CPE credits which will be distributed following class completion. In order to be awarded the full credit hours, you must notify your instructor of your intention to request credit before the start of the first class. To receive CPE credit, you must be present and actively engaged, which will be verified using polling questions and other means. You will not receive CPE credit for any portion of the class that you do not appear fully engaged.

**Version:** This class is taught in Microsoft Dynamics 365 Business Central.

**Learning environment:** As experienced trainers of adult learners, we understand how to make training “stick”. We use proven practices to make sure you retain what you learn and are fully equipped to immediately apply what you discovered in class. Each day, you will spend more than 50% of your time doing hands-on exercises in our simulated learning environment.

**Refund and Cancellation Policy:** Please refer to our Refund and Cancellation policy [here](#).
