Inventory Control with Basic Warehousing

It doesn't get any more basic than this: learn the right way to manage and track inventory in your warehouse or you'll waste countless hours and dollars, disappoint customers, and grow increasingly frustrated. Your Microsoft Dynamics 365 Business Central / NAV system does a fantastic job helping you to track and manage your inventory, if you follow the built-in best practices, and we'll show you how.

Class topics
- Replenishments
- Physical and Cycle Count
- Inventory Adjustments
- Reservations, Troubleshooting & Reporting

Who Should Attend?
This class should be considered critical for anyone on the Warehousing team.

Learning Objectives:
At the end of this class, participants will be able to:

- Design and implement their approach for regular physical and cycle counts
- Explain how replenishments and reservations work
- Identify common needs and approaches for inventory adjustments

Field of Study: Computer Software & Applications

Program Level: Basic

Prerequisites: Basic Warehousing Setup

Advanced Preparation: Each student will receive via email connection instructions to their individual virtual classroom link and hands-on practice environment shortly before class. Connections to both resources should be tested before class. We recommend using a second monitor while attending class.

Delivery Method: Group Internet-based

CPE Credits: By participating in this class, you are eligible to earn up to 4 CPE credits which will be distributed following class completion. In order to be awarded the full credit hours, you must notify your instructor of your intention to request credit before the start of the first class. To receive CPE credit, you must be present and actively engaged, which will be verified using polling questions and other means. You will not receive CPE credit for any portion of the class that you do not appear fully engaged.

Version: This class is taught in Microsoft Dynamics 365 Business Central.

Learning environment: As experienced trainers of adult learners, we understand how to make training "stick". We use proven practices to make sure you retain what you learn and are fully equipped to

immediately apply what you discovered in class. Each day, you will spend more than 50% of your time doing hands-on exercises in our simulated learning environment.

Refund and Cancellation Policy: Please refer to our Refund and Cancellation policy here.
