

May is Controllers Appreciation Month

OK, not officially, but why not? Given the variety of responsibilities Controllers have and their significance in guiding an organization's well-being, regular training should be considered critical for the role. Now that you're done year-end closing and audits and taxes, time to invest in yourself and learn new skills for using your Business Central / NAV system with the [Advanced Controller's Boot Camp](#). Mark your calendar for May 17-21, 1:00 – 5:00 EDT. We hope you can make it!

ADVANCED CONTROLLER'S BOOT CAMP

Are you wasting \$?

Really it's not a question of if, it's a question of how? Very few organizations are using most of the functions and features of their Business Central / NAV system. You do what you need to go live, then seldom return to do those "Phase 2" items. Use our free [Business Transformation Scorecard™](#) to assess what functions and features you're missing out on – which you already own!

WHERE ARE WE WASTING MONEY?

Drum roll please!

Next Tuesday Microsoft hosts their spring [Dynamics 365 Business Central Launch Event](#)! It's great opportunity to see the 2021 release wave 1 of Business Central, hear the latest about the overall product direction, and gather ideas about how to use the Microsoft stack as a strategic enabler at

your organization.

BC LAUNCH EVENT
