## Disaster, headache, or nirvana?

Providing user access to too much is a recipe for disaster, restricting it too far is a guaranteed headache. How do you find that elusive Permissions nirvana? System admins and controllers – don't miss your opportunity to learn the righter way to set up and maintain your Permissions and Security in Business Central / NAV.

Join in on our next [Security & Permissions](#) class, June 8, 1:00 – 5:00 EDT.
