

Configuration Packages

Get ready to wow. Configuration Packages (known as RapidStart previously) are an indispensable tool within Microsoft Dynamics 365 Business Central / NAV for moving data in and out of the system, and every System Administrator and accounting team member should know about it. We're continually surprised at how many companies are unaware of this incredible tool and we're here to change that. Once you see how easy it is to use you'll have no trouble applying it immediately to a number of your existing processes.

Class topics

- Uses and scenarios
- Package setup
- Permissions
- Administration

Who Should Attend?

Any System Administrator, Project Manager, or member of the Finance/Accounting team interested in streamlining how they work with their company's data and improving the accuracy and control of data manipulation related tasks.

Learning Objectives:

At the end of this class, participants will be able to:

- Explain how to set up and use Configuration Packages
- Identify existing processes to apply Configuration Packages
- Configure reusable Configuration Packages
- Cite the risks and safeguards for using Configuration Packages

Field of Study: Computer Software & Applications

Program Level: Basic

Prerequisites: None

Advanced Preparation: Each student will receive via email connection instructions to their individual virtual classroom link and hands-on practice environment shortly before class. Connections to both resources should be tested before class. We recommend using a second monitor while attending class.

Delivery Method: Group Internet-based

CPE Credits: By participating in this class, you are eligible to earn up to 4 CPE credits which will be distributed following class completion. In order to be awarded the full credit hours, you must notify your instructor of your intention to request credit before the start of the first class. To receive CPE credit, you must be present and actively engaged, which will be verified using polling questions and other means. You will not receive CPE credit for any portion of the class that you do not appear fully engaged.

Version: This class is taught in Microsoft Dynamics 365 Business Central.

Learning environment: As experienced trainers of adult learners, we understand how to make training “stick”. We use proven practices to make sure you retain what you learn and are fully equipped to immediately apply what you discovered in class. Each day, you will spend more than 50% of your time doing hands-on exercises in our simulated learning environment.

Refund and Cancellation Policy: Please refer to our Refund and Cancellation policy [here](#).
