

Struggling to find resources?

Projects falling behind?

SMEs stretched too thin?

BC Consultant Accelerator

A new approach to an old problem.

An executive MBA-style program for consultants new to BC to equip them for the front lines.

Our January 2022 class is now open for registration.

What's our approach?

Students spend 8-12 hours / week with:

- LIVE classroom instruction
- Group work
- Writing and researching
- Peer review

Flexible schedule

Work around normal business hours

Fully virtual

Access to coaches throughout

Why we're different

- We're not a VAR
- All trainers are MCTs and former users
- Peer learning exercises and scenario-based application

50% faster utilization

End-to-end system knowledge

Real world insights and application

Semester A (20 weeks; can take standalone)

BC Software Functionality

- Transaction and Process flows
- Application setup
- Complete functionality for 12 end-user roles through Day-in-the-Life lessons
- Capstone project

Semester B (20 weeks; take after Semester A)

BC Functional Consulting

- Project quoting
- Requirements gathering and fit gap analysis
- Implementations
- Project Management
- User adoption and difficult conversations
